ABHISHEK KR SHARMA

Full Stack Developer | Software Engineer

Noida / Delhi NCR / Bengaluru +91-7488940577 a7b0hishek@gmail.com GitHub LinkedIn Portfolio

PROFESSIONAL SUMMARY

Full Stack Developer (B.Tech IT, 2026) with experience building web applications using **MongoDB, Express.js, React.js, Node.js, Python, Django, and PostgreSQL. Built REST APIs**, JWT-based authentication with role-based access control, and React interfaces across three internship/trainee roles and four projects, including an LLM-powered task assistant using LangChain and RAG. Hands-on experience in API testing, debugging, and application development. Seeking opportunities as a Full Stack Developer, Software Engineer, or Python Developer.

EXPERIENCE

Python Full Stack Trainee **Future Finder** Jan 2026 – Jun 2026

- Developed RESTful APIs with authentication and CRUD operations, integrated recommendation engine functionality, and executed 10+ API test cases in a 3-member team to identify defects and improve application reliability.
- Contributed an LLM-based assistant (OpenAI) with automated risk classification; response caching cut redundant API calls by 30

Full Stack Developer Intern **ThinkNext Technologies** May 2025 – Nov 2025

- Built 4 backend modules (e.g., user management, orders, notifications, reports) using OOP principles, reducing duplicated code and simplifying maintenance.
- Optimized 6 SQL queries through indexing and query rewrites, reducing average retrieval time from 450 ms to 180 ms.

Developer Intern **Devtown** Aug 2024 – Mar 2025

- Automated data cleaning and validation in Python on 5,000+-record datasets, cutting manual effort by 60%.
- Profiled the application, identified redundant loops , and fixed them, reducing execution time by 25%.

PROJECTS

AI-Powered Task Management REST API View project *Python, Django, LangChain, Groq API, PostgreSQL*

- Built an AI-powered task management assistant using LangChain and Groq LLMs to interpret natural-language requests, answer task-related queries, and create, update, or delete tasks with confirmation safeguards.
- Implemented automated budget-risk monitoring using Green/Amber/Red status classification, AI-generated recommendations and risk analysis, and request-hash caching reduced repeat LLM calls by 35%.

Meter & Transformer Management Platform View project *TypeScript, Fastify, React.js, Tailwind CSS, Zod*

- Built a TypeScript/Fastify REST API with 10 endpoints, Zod validation, pagination, filtering, and OpenAPI docs.
- Built a React dashboard with protected routes, detail views, and authenticated CSV export; deployed on Render.

Movie-X – Web Application View project *React.js, Redux Toolkit, JavaScript, SCSS, TMDB API*

- Developed a responsive movie discovery application with search functionality, trending and top-rated listings, and movie/TV show exploration using Redux Toolkit for state management across 5 pages.
- Integrated TMDB REST APIs to fetch movie details, cast information, ratings, and recommendations.

Price Comparison Web App View project *React.js, Node.js, Express.js, MongoDB, REST APIs, RapidAPI*

- Developed reusable React components for product search, filtering, and side-by-side comparison of 50+ products.
- Built Node.js/Express REST APIs to fetch, normalize, and serve product data from 2 sources, with MongoDB storage.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL, C++
Frontend: React.js, HTML5, CSS3, Tailwind CSS, React Router
Backend: Node.js, Express.js, Fastify, Django, Django REST Framework, REST APIs
Databases: MongoDB, MySQL, PostgreSQL
API & Validation: OpenAPI, Zod, REST API Integration, API Debugging
Testing & QA: Manual, Functional & Regression Testing, API Testing, Test Case Design, Bug Reporting, Postman
Tools & Deployment: Git, GitHub, VS Code & Render, Basic Cloud Deployment, Environment Variables
Concepts: OOP, DBMS, Operating Systems, SDLC, STLC, Data Structures & Algorithms

EDUCATION

Bachelor of Technology in Information Technology **2022-2026**
Chandigarh Engineering College, Landran (IKG Punjab Technical University) CGPA: 7.6/10

CERTIFICATIONS & ACHIEVEMENTS

AWS Data Engineering Certification | Oracle Agentic AI Foundations Associate
Smart India Hackathon 2024 – Participant | Blockchain Workshop – IIT Hyderabad
